# Our Products

Your Path to Success Starts Here: Discover  
Axicom's Exceptional Products!

# Transport Management System (TMS):

Optimizes transportation operations to reduce costs and enhance supply chain efficiency.

## Features:

- Master Data
- Tracking
- Mobile Compatibility
- Vehicle Management
- Bidding Process
- Load Board Features
- Control Tower
- One Time / Recurring Order
- Perform a Invoicing
- Dashboard Analytics

# Cloud Warehouse Management System (WMS):

Improves efficiency and productivity in warehousing operations.

## Features:

- Master Data Creation
- ASN Receipt
- Goods Receipt
- Quality Acceptance
- Auto Allocation Bins
- Put Away
- Outbound Order
- Picking
- Packing
- Inventory Management

# Warehouse Booking System

Modern solution for space allocation, inventory tracking, and scheduling.

## Features:

- Dynamic Storage Space Discovery
- Real-Time Available Space Information
- Bidding Process
- Seamless Integration
- Mobile Accessibility
- Billing and Invoicing
- Real-Time Reports and Analytics
- Enhanced Customer Service

# E-Commerce Delivery

## Application:

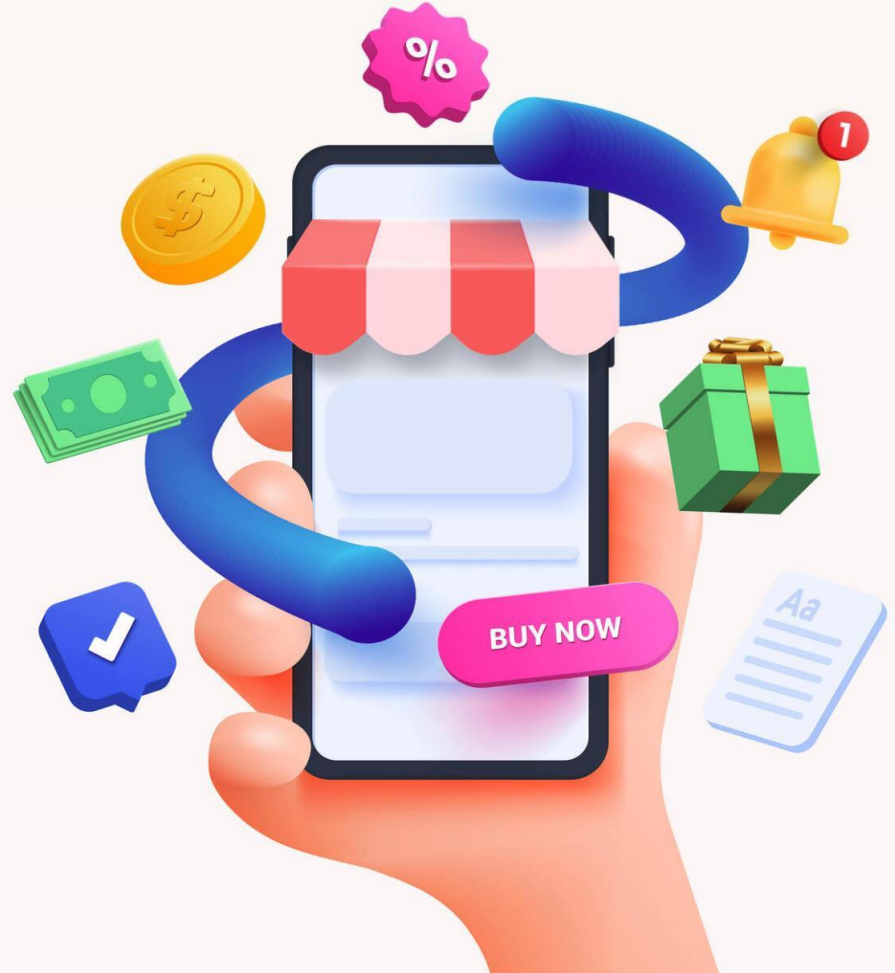

Connects consumers with organic grocery vendors and delivery partners.

## Modules:

- Buyer Application
- Seller Application
- Delivery Partner Application
- Admin Panel

## Features:

- User, Vendor, and Delivery Partner Management
- Order and Transaction Monitoring
- Admin Support and Management

## Yard and Bay Management:

Optimizes yard management processes at warehouses.

### Features:

- Master Data Creation
- Appointment Scheduling
- Gate Management
- Dashboards
- Dock and Yard Management
- Real-Time Tracking

## AMS – Web-based Issue Tracking System:

Tracks software defects and manages project releases.

### Features:

- User Access Control
- Notifications on Issues and Resolutions
